The indications are that Robt. E. Pattison, twice elected Governor of Pennsylvania, will be the Democratic choice to make the race for Governor against Mr. Pennypacker.

There must be a dearth of amusements in Montreal, Canada. At a hanging there a few days ago people paid prices ranging from fifty cents to $10 to see the rope performance.

Speaking about that San Francisco interview, Waller says he didn't say it. Maybe it was a case of telepathy with the interviewer. He just caught Waller's thoughts at long range.

MANY EXCURSIONISTS FROM ATLANTA TO-DAY.

Train in Two Sections Will Arrive This Morning—White and Colored Coaches Are Provided.

Wilmington and the beaches will be thronged with excursionists from Atlanta to-day, to-morrow and a part of Monday. A train in two sections, one for white and one for colored persons, left Atlanta last evening at 6 o'clock and both will reach here between 8 and 10 o'clock this morning. The white people will go straight through to Wrightsville and the section of the train bringing the colored people will stop in Wilmington.

The train for the white excursionists consists of four Pullmans and a number of day coaches, and among the most prominent people of Atlanta will compose the party. The Seashore Hotel, in honor of the Atlantans, will give a magnificent ball to-night, which promises to be one of the most elaborate of the functions at the beach this season. Many Wilmington young people will go down this afternoon to share in the pleasure.

Yesterday's Atlanta *Constitution* says: "The first annual excursion from Atlanta to Wrightsville Beach, N. C., will leave Atlanta this afternoon at 6 o'clock sharp. This train will consist of five Pullman sleepers, eight day coaches and a baggage car. The train will be well stocked with refreshments. This train will be pulled by two of the largest locomotives on the Seaboard Air Line railway, and will be one of the biggest excursions out of Atlanta so far this season. W. H. Fulton and W. B. Clements, travelling passenger agents, will accompany the party."

LOCAL DOTS.

— License was issued yesterday for the marriage of Miss Annie Chinness, daughter of Mr. and Mrs. T. B. Chinness, of Phœnix, to Daniel A. Brew, of Phœnix, N. C.

— By deed filed for record yesterday, Ellis Nixon and wife transferred to Mr. A. Shrier lot on west side of Eleventh between Dock and Orange streets, 60x75 feet in size; consideration $10.

— The Atlanta *Constitution* of yesterday in printing a half-page advertisement of the Seaboard Air Line's excursions to-day gives an excellent re-production of the map of Wilmington recently prepared by the Chamber of Commerce of this city.

About Our Climate.

Those who are accustomed to look regularly over the valuable reports sent out by the Weather Bureau are impressed this Summer with Wilmington's continued cool atmosphere despite all the idle talk one hears on the streets about its being so awfully hot. Tuesday, for instance, was regarded as a "scorcher" until the refreshing shower which came at night, but the record shows that Wilmington was even then very cool compared with other places in the State. The maximum temperature was 87 degrees while the average in this district was 90 and other places in the Carolinas were as follows: Charlotte 88, Cheraw 93, Florence 94, Goldsboro 92, Newbern 90, and Raleigh 90.

Extending Rural Delivery Service.

The Washington correspondent of the Raleigh *Post* says: "Superintendent Machen of the rural free delivery system, has promised Representatives Thomas and Bellamy to send a rural free delivery inspector into the counties of Jones, Craven, Onslow, Duplin, Sampson, Cumberland, Bladen and Wayne. The inspector will begin in the first named counties next week."

Craig May Succeed Wrenn.

Savannah *News*, 20th: "There is a rumor that in the event Passenger Traffic Manager B. W. Wrenn of the Plant System does not remain with the Atlantic Coast Line at the head of passenger traffic in Savannah, W. J. Craig of Augusta will be given the position. He is well known in Savannah and throughout this section, and his passenger experience has been such as to make him a prominent figure to catch the eye of executive officials looking for a competent man."

Cotton and Naval Stores.

The weekly stock report posted yesterday at the Produce Exchange shows receipts of 805 bales of cotton against 212 bales same week last year; since Sept. 1st, 276,868 bales against 267,197 bales during the corresponding period last season. The week's receipts of rosin were 2,508 barrels against 1,860 barrels last year and tar 858 barrels against 261 barrels last season.

Steamer City of Fayetteville.

As early as next week the magnificent steel steamer *City of Fayetteville*, recently built by the Morrell Stevens Engineering Co., of Jacksonville, Fla., is expected in port on her way to Fayetteville. She is said to be the finest stern wheel boat ever built for the Cape Fear.

Will be Married Next Wednesday.

Announcement is made of the forthcoming marriage at the home of the bride's mother next Wednesday night at 9 o'clock of Miss Bertha Dudley, a popular young lady of this city, and Mr. John H. Broun, of Alabama, travelling timber inspector of the Southern Bell Telephone Co.

OUR MEMORIAL DAY.

Veterans Leave Matter of Change of Date to Daughters of the Confederacy.

CAMP MEETING LAST NIGHT.

Will Purchase Clark's Regimental Histories and Moore's Roster of N. C. Troops — Several New Members Were Received.

An adjourned regular monthly meeting of Cape Fear Camp No. 254, U. C. V., was held last night at the W. L. I. armory and a number of important matters were under consideration. Principal among these, perhaps, was the question of a change in the date of Memorial Day from May 10th to Jefferson Davis' birthday, June 3d, as recommended by the United Confederate Veterans at their recent reunion in Dallas. Many of the subordinate camps throughout the South have adopted the later date, beginning next year, and the question has received thorough consideration here. At the meeting last night, after some discussion, it was ordered that the entire matter be referred to Cape Fear Chapter, Daughters of the Confederacy, with the information that whatever action they may deem best to take, will meet with the approval of the Camp.

Another feature of the proceedings last night was an order that a full set of Judge Walter Clark's regimental histories and Moore's Roster of North Carolina troops in the Civil War be purchased and placed in the library of the Wilmington Light Infantry, with the consent of the latter body.

Capt. R. M. McIntyre presented a very feeling resolution upon the death of Dr. B. M. Palmer, of New Orleans, chaplain of the Army of Tennessee and an officer well known and loved throughout the South.

Applications from a number of persons desiring membership in the Camp were read and nine of the same were accepted from the following: Owen Fennell, J. G. Skipper, R. A. Corbett, J. G. Boney, Sol Bear, C. H. Ward, B. R. Russell, T. D. Meares and M. K. Smith.

Commander James I. Metts presided at the meeting and Capt. A. L. DeRosset, adjutant of the Camp, kept the record. The meeting was full of enthusiasm and adjournment was had subject to call of the Commander.

IMPROVEMENT TO CUSTOM SERVICE.

Property That Will Be Bought—Mr. Bellamy's Bill as to Appraisement.

The STAR yesterday mentioned the fact that the House had passed Mr. Bellamy's bill authorizing the Secretary of the Treasury to purchase the Parsley property adjoining the Custom House, in this city, but was in error in locating the same. It should have been next north of the Custom House and the wharf in front, instead of next south as stated. Sixteen thousand dollars is appropriated and so much as is necessary may be used for the purchase. The property desired includes a two-story brick building and the wharf adjoining the custom house property. All claims against the government must be waived in the sale.

The House Committee on Ways and Means has reported favorably the bill introduced by Congressman Bellamy allowing the port of Wilmington to import dutiable merchandise through the port without appraisement The measure will have the effect of putting Wilmington on the same footing with all the large ports in the country, such as New York, Norfolk and New Orleans.

Mr. Ed. Tennent to Wed.

Friends in Wilmington have received invitations announcing the approaching marriage of a young man popular here and reading as follows: "Miss Sarah M. Carson requests the honour of your presence at the marriage of her neice, Miss Geddings Hardy Finney, and Mr. Edward Smith Tennent on Wednesday morning, June 25th, 1902, at 9 o'clock, 194 East Main street, Spartanburg, S. C." Miss Fannie Taylor left Thursday evening to attend the ceremony, and Col. Walker Taylor, who will be Mr. Tennent's best man, will leave next week.

Remarkable Yield of Corn.

Mr. W. J. Northam, who lives near Wilmington and indulges in agriculture to a small extent for both pleasure and profit, has a remarkable field of corn near his place. The corn is bearing well and the stalks, in their effort to be as fruitful as possible, are even maturing ears in their tassels, in addition to those on the stalk in their ordinary place. Those who know say it is a remarkably good year for corn in this vicinity.

Funeral of a Child.

The funeral of the little 17-months-old child of Mr. and Mrs. S. F. Yopp was conducted from the family residence Thursday afternoon at 4 o'clock, the Rev. Father C. Dannen officiating. The pall bearers were Messrs. Roy McKenzie, Ed. Polley, Robert Montgomery and Charlie Hall.

Excursion to Norfolk.

On June 23rd the Atlantic Coast Line will operate an excursion train from Wilmington to Norfolk, leaving Wilmington at 6:30 A. M., and returning leave Norfolk 9 A. M. June 25th. Passengers will be taken at stations from Wilmington to Magnolia, and the fare will be $3 for the round trip. Separate coaches will be provided for white and colored persons. †

GOV. AYCOCK WELCOMES FIFTH GEORGIA REGIMENT.

In Cordial Letter to Passenger Agent Christian—Atlanta Constitution Speaks Kindly of Encampment Site.

Governor Aycock has written the following letter to Assistant General Passenger Agent W. E. Christian of the S. A. L. in regard to the encampment of the Fifth Georgia Regiment at Wrightsville July 17th-27th:

"MY DEAR SIR: I am very glad the Fifth Georgia Regiment is coming to North Carolina. I hope that their stay may be very pleasant. If we were holding an encampment this year I should try to hold it at the same time and place so as to let our boys meet and know the Georgia boys, but we do not hold an encampment this year. Please extend to them a cordial invitation from the State of North Carolina to enter upon her territory and possess the same. Express to them my very best wishes for a pleasant and profitable encampment. I shall be glad to do anything in my power to make their visit to us agreeable. You have but to indicate what can be done in this way to secure my co-operation. I shall very gladly grant the required permission upon the application of the Governor of Georgia for their entering into the State of North Carolina. I am, with best wishes and kindest regard to you personally, very truly yours, CHAS. B. AYCOCK, "Governor of North Carolina."

The Atlanta *Constitution* of yesterday says: "The site for the encampment has been selected on the Hammocks, an island between the mainland and a peninsula strip. Between these is Wrightsville sound, which flows in from the ocean, and beyond the strip of beach is the Atlantic ocean. On the strip of beach are cottages, club houses and hotels facing the ocean, within 200 yards of the surf.

In Wrightsville sound proper is what might be called still water, subject only to the fluctuations of the tide. On the island, deeply shaded with live oaks, the regiment will have such seclusion as is desirable, together with the facilities afforded for moonlight sails, fishing parties and trips to and from the beach on a trolley line passing the island every fifteen minutes. In addition to this the regiment will be furnished with sail boats and fishing tackle for leisure moments, and the hospitable city of Wilmington will have its doors open to the gallant sons of Georgia during their stay."

LOCAL SHIPPING INTELLIGENCE.

A Schooner Arrived—Steamer Franklin Pierce Entered at Custom House.

The schooner *Wm. H. Bailey* arrived from New York at Fort Caswell yesterday and is discharging a part cargo of cement there. The vessel will later come up to the city and finish discharging to Messrs. Roger Moore's Son & Co.

The steamer *Franklin Pierce* has been measured by Acting Surveyor Wm. Struthers and entered at the Custom House. She is 57.2 feet in length; 16.6 feet breadth and has a depth of 4.2 feet. Her gross tonage is 36; net, 16. Capt. W. A. Snell will be her master. Capts. F. B. Rice and J. T. Borden, U. S. Inspectors, arrived yesterday from Charleston and inspected the steamer. They also inspected the steamer *Lillian*, belonging to Mr. W. T. Sears, of the Angola Lumber Co.

Improvement at Police Station.

A gateway to the police station downstairs at the City Hall has been cut in the iron fence enclosing the building and a neat walk is being made from the street to the door. The day hall officers under the direction of Chief Furlong are making the improvements. Heretofore if one had business at the police station, he would have to ascend the steps leading to the main entrance of the City Hall, then descend a sharp declivity to the right and next go down another stretch of steps into the station. Most of the climbing process is now "cut out" and the public generally welcome the change.

Will Stick to Forms.

Savannah *News* 20th "The operation of the Plant System will be continued after July 1, when it will become a part of the Atlantic Coast Line, upon much the same basis as now. The operation of the two properties, the Coast Line and the Plant System, will be largely as though they were still separate in ownership. Yesterday notice was received that the storekeeper of the Plant System should not allow his supplies to run short, in the supposition that there would be a change in forms after July 1. He was notified, on the contrary, that the Plant System forms would continue in use."

Aboard the Wilmington.

The excursion on the steamer *Wilmington* yesterday was successful both as to the number participating and their enjoyment of the occasion. There was a very pleasant party, too, that took the 5 P. M. trip to the pier and return. The babies and the older children had a great time; and what they would do without the graceful and speedy *Wilmington* is an unsolved problem.

An Office in the Hotel.

The Consolidated Railways, Light and Power Company has established an office at the Seashore Hotel, Wrightsville Beach, where tickets may be purchased, express billed and baggage checked. The office will be a great convenience to Seashore Hotel guests as well as so the public generally.

Reduced Rates Via Seaboard Air Line Account 4th July.

Account of Fourth of July Holidays the Seaboard Air Line Railway will sell round trip tickets to all points south of the Ohio and Potomac and east of the Mississippi rivers, including Washington, D. C., and Cincinnati, Ohio, at rate one and one third first class limited fare, for the round trip. Tickets sold July 2nd, 3rd and 4th, with final limit July 8th. †

[*Special Star Telegram.*]

DURHAM, N. C., June 28.—In a very poor game of ragged ball playing Durham defeated Wilmington in the game this afternoon. Errors abounded on both sides and the game was uninteresting from a scientific standpoint. The visitors had six to their credit, while the Durham team made four. The hits were eight to six in favor of the visitors. Krause, who was in the box for Wilmington, allowed nine free passes to first and in the eighth inning, after he had allowed four to walk and forced one man home, he was relieved by Mace. In the next inning Mace allowed one pass and advanced a man by a balk. Durham also played a rocky game. Had the home team put up the same game that was played yesterday the runs would have been a score or more.

Morris pitched a fairly good game, but allowed three free passes and struck out three men. Two hours and five minutes was the time of the game.

Unnecessary for the Umpire To Play His Usual Game.

— We outbatted them, but—

— Those Durham Shorthorns are a bully lot.

— The horse editor will hazard twenty cents on Wilmington to-day.

— Nothing was heard from "Wallie" Warren last night or yesterday.

— Dommel and McGinnis each made two hits out of four times at the bat.

— The only two base hits of the game were made by Holland and Dommel.

— Anyhow, Wilmington will win in the B.—B. game to be played at Hilton Park next Tuesday.

— Why, certainly we'll "get 'em today if the reconstructed play as they did here last Saturday.

— In the eloquent but melancholy words of Gustavus Adolphus Robinson: "O! dear, what can the matter be?"

— If Karns doesn't fool those Bulls with his lazy drops to-day we'll have to give 'em up until they come here next week,

— Wilmington made eight hits to six for Durham; six errors were quite enough to make it unnecessary for the umpire to "play his usual game"

— The team which left here this week to play Bennettsville, S. C., returned in part yesterday. The boys won't give any figures, but rumors say they were overwhelmingly defeated.

— The rejuvenated are evidently reserving their strength for the encounter with Charlotte next week. If they will take two out of three from the Hornets and down the Durham Bulls to-day, all will be forgiven.

— The colored excursion which arrives in the city to-day will bring a ball team which will be engaged at Hilton Monday afternoon by the "White Caps" of Wilmington, under Capt. Tom Brown. A game may possibly be arranged for this afternoon.

— Referring to the deadly conflict to be waged at Hilton Park next Tuesday between the Benedicts and the Bachelors the horse editor says he'd like to know where the widowers come in. If they have a spark of manhood left, however, they will resent this slight by playing ping-pong with the crankerinas in the grand stand.

CHARLESTON WANTS THE CRUISER HORNET.

After She is Repaired at Norfolk South Carolina Naval Militia Will Apply to the Government for the Ship.

In view of the fact that the U. S. S. *Hornet* has been ordered to Norfolk for repairs and the North Carolina naval militia has made application for a lighter draft vessel that can navigate the sounds and streams of the State, the South Carolina Naval Reserves are preparing to make application for the ship and it appears they stand a good chance of securing her. The Charleston *Post* says:

"A member of the Charleston militia suggested to-day that the South Carolina authorities should send their application to the Navy Department immediately for the *Hornet*. When the repairs are completed she will be practically a new boat and will not need attention for a long time to come. It will consequently cost but little to maintain her, and excellent training will be afforded the reserves by securing the vessel. A training ship would popularize the service considerably, the member said, and the slight cost of maintenance would be more than offset by the increased membership and the greater efficiency and popularity of the service."

THE BACHELOR-BENEDICT GAME.

Postponed Until Tuesday Afternoon When There Will Be Added Features.

The Bachelor baseball team which was advertised to do battle with the Benedicts at Hilton Park this afternoon announced yesterday that the game would be postponed until Tuesday of next week. No reason was assigned for the postponement beyond the fact that the Benedicts had to take "the children" to the Beach Saturday but Dame Rumor says the delay is to give the Bachelors time to practice and that several of the stars are already hieing themselves away to the woods to get in shape for the mighty conflict. There were also rumors that Ed. Battle had jumped the team and that Tom Orrell had been put on the bench for 30 days, but these rumors were not confirmed "Billy" Baxter, a heavy hitter from Wake, and Kerr, a fast fielder from Carolina Beach, were signed yesterday by the Bachelors and have been sent transportation.

The Charlotte-Wilmington League game will be taken by innings that day at the Park and posted for the benefit of the spectators.

MR. JAMES COLLIER'S INJURIES.

He Arrived at Home Last Evening from New York—Severely Hurt.

Mr. James K. Collier, who was severely injured in New York last Saturday by being run over by a cab, arrived at home last evening accompanied by his brother, Dr. G. Kirby Collier, who joined him yesterday morning at Washington.

Mr. Collier was injured rather more seriously than the family at first supposed, but his friends hope for his entire recovery within a few weeks. Dr. Collier, his brother, had not had time last night to make a thorough examination of the injuries but he thinks no bones were broken although one of them may by shattered. The principal injury is of the right hip and the patient is still suffering much.

The accident occurred at Fifth Avenue and Thirty-fifth street as Mr. Collier was about to take the cab by which he was run over to go to the studio where he was engaged in art work. The vehicle passed entirely over his body and several bruises were received besides those of the hip. Mr. Collier is now receiving the best of nursing and surgical attention and hopes to be out again soon.

SOUTHPORT'S GLORIOUS FOURTH.

Wilmington's Mayor and Board of Aldermen and Others Invited—Oration.

[*Special Star Telegram.*]

SOUTHPORT, N. C., June 20.—The committee on entertainment for the celebration to be held here July 4th has extended an invitation to the following persons to be present upon that occasion as guests of our city: Mayor Waddell and members of the Board of Aldermen of Wilmington; President of the Chamber of Comber of Commerce; Hon. Jno. D. Bellamp, member of Congress, and representatives of the STAR, *Messenger* and *Dispatch*.

The oration will be delivered by Rev. Dr. Calvin S. Blackwell and the features of entertainment will be many and varied, including boat racing, athletic sports, music, etc., etc.

Carolina Yacht Club Opening.

The annual opening of the Carolina Yacht Club at Wrightsville last night was attended by much success and was thoroughly enjoyed by more than two hundred guests, including clubmen of the Atlantic and Hanover Seaside organizations. There was music, dancing and refreshments. A late train to the city at midnight brought many of the pleasure seekers home.

Another S. S. Excursion.

Grace Methodist Church Sunday School will enjoy an outing next Wednesday at Carolina Beach, where an abundance of entertainment will be provided. There will be three boats during the day and the public is cordially invited. The fare will be 25 cents for the round trip.

— Durham has signed Jenkins, pitcher, and Fisher, catcher, of Louisville, Ky.; and Vetter, pitcher, of Evansville, Ind. The new players are expected on almost every train.

NORTH CAROLINA DENTAL SOCIETY.

Number of Important Questions Considered Yesterday—Meets at Winston.

[*Special Star Telegram.*]

RALEIGH, N. C., June 20.—The North Carolina Dental Society in annual session here discussed with much favor to-day the questions of urging dental colleges to raise the standard on academic qualifications for matriculation; provision by the State for dental services for the inmates of the deaf, dumb and blind institutions and State hospitals; more rigid enforcement of the dental laws and the formation of local societies to co-operate with State Society.

A magnificent reception was tendered the dentists to-night by Dr. and Mrs. V. E. Turner. Governor Aycock was one of the receiving party. The society adjourns to-morrow. Winston will be selected as next place of meeting.

THEY WERE "RIGHT ON THE JUMP."

Raleigh Baseball Team Hastened to Charlotte on a Special Train.

[*News and Observer.*]

The Raleigh ball club went to Charlotte on a special over the Seaboard Air Line yesterday, made up by the energetic efforts of Mr. C. H. Gattis, city ticket agent of the Seaboard.

The team was to have left at four o'clock yesterday morning, but Mr. Vance Scott, secretary of the Athletic Association, who had the tickets, overslept himself and the team could not go.

Then there was hustling. Contributions came in from friends of the club and a special to Charlotte was chartered, rumor saying this cost $180. The team reached Charlotte shortly after four o'clock, in time for the game, but Secretary Scott's nap was a costly one.

Eleven men are now with the team, Davis, Connor and Latimer have been dropped. Smith is laid up with a game leg, but will be in the game when the team returns.

WELL KNOWN BLADEN MAN DEAD.

Mr. J. R. Singletary Died Thursday Night. Clarkton Male Academy.

[*Special Star Correspondence.*]

CLARKTON, N. C., June 20.—Mr. J. R. Singletary, a prominent business man of this county, died at the home of his parents near here last night. Mr. Singletary was well known in business circles throughout this section. For several years he was bookkeeper for Mr. O. L. Clark, of this place, and for the past two years was a stockholder and manager of the Bladenboro Mercantile Co., of Bladenboro. He was taken with fever about two weeks ago. He was a single man and in the prime of life.

Work is progressing rapidly on the new buildings for the Clarkton Male Institute. Everything is promising for the opening next session.

Engine Wrecked at Florence.

Florence *Times*, 20th: "One of the big ten-wheel Baldwin engines, known as copper-heads, was badly damaged in an accident at the transfer freight yards yesterday afternoon, and is in the shops for repairs. It seems that as a section of the through freight 209 was entering the yards a shifting engine pushed some cars beyond the 'clear' post on an adjoining track, the cars crashing into the side of the freight engine. Half the cab was torn away, the air pump was knocked off and other damage was done, both to the engine and a car or two. No one was hurt. Mr. Temple was on the wrecked engine."

PERSONAL PARAGRAPHS.

— Mr. J. M. Solky got home from the North yesterday.

NEW ADVERTISEMENTS.

A PROCLAMATION BY THE GOVERNOR.

$400 REWARD.

State of North Carolina,
Executive Department.

Whereas, official information has been received at this department that Harrison and James Gillespie were lynched at Salisbury about June 10, 1902, by parties unknown;

And Whereas, it appears that the said parties unknown have fled the State, or so conceal themselves that the ordinary process of law cannot be served upon them:

Now, therefore, I, Charles B. Aycock, Governor of the State of North Carolina, by virtue of authority in me vested by law, do issue this my proclamation, offering a reward of four hundred dollars each for the apprehension and delivery of the said parties unknown or any of them to the sheriff of Rowan county at the court house in Salisbury, with evidence sufficient to convict and a conviction, and I do enjoin all officers of the State and all good citizens to assist in bringing said criminals to justice.

Done at our city of Raleigh, the 18th day of June, in the year of our Lord one thousand nine hundred and two, and in the one hundred and twenty-sixth year of our American Independence.

SEAL.

CHARLES B. AYCOCK.

SPECIAL NOTICE.

Withdrawal Insured Bills of Lading.

Beg to advise that effective Monday, June 16th, 1902, and until further notice, the Clyde Line has cancelled its cargo policies and will only move property entirely uninsured by the steamers it may operate between New York, Wilmington, N. C., and Georgetown, S. C., and subject to the terms of the contract embodied in the Bill of Lading, which clearly relieves the carrier from marine risk, including fire and other casualty, while on land or water.

We give the merchants this early notice in order to enable them to make such arrangements of their own as they may deem proper, to protect themselves against any losses for which, under the terms of the contract as embodied in the Bill of Lading, the carrier is in no way responsible. All property being entirely uninsured while in the possession of the Clyde Line shippers must arrange for their own insurance; however, if they desire to effect insurance under the open policies held by the Clyde Line, and which insurance must be endorsed on the Bills of Lading, they can do so at rate of twenty cents per one hundred dollars valuation.

BY WILLIAM H. BERNARD

WILMINGTON, N. C.

SATURDAY MORNING, JUNE 21.

"WISE STATESMANSHIP."

It appears that money was paid to several other Cuban army officers besides Gomez to prevent trouble there during the work of reconstruction. There were several who received in the aggregate $10,000 or more. Of course the payments to them will be defended on the same ground that the payments to Gomez were. Possibly it was money well spent, as it came out of the Cuban treasury and maybe the men who got it earned it. Secretary Root is of the opinion that it was money well spent and that it may have saved much trouble and in the end an incomparably larger amount of money.

In justifying these expenditures attention is called to the fact that just after American occupation and for some time the conditions in Cuba were very precarious, with the Cuban soldiers penniless and clamoring for pay, until this Government struck upon the plan of quieting them and paying each one who surrendered his gun $35. We think that was the amount. That was successful as far as getting rid of the clamor of the Cuban soldiers goes, but these soldiers were still a factor, for they were more or less under the influence of their leaders and would follow them, guns or no guns. Gomez, the biggest of the bunch, had more influence than all the rest put together and therefore it became necessary to win and placate him and keep him placated.

The fact is Gomez had political aspirations, and consequently while not saying much and playing the role of the disinterested patriot he kept in close touch with the soldier and revolutionary element. Of course the more power he showed the more valuable his friendship or neutrality became, and the more they were willing to pay him for his co-operation or his neutrality. It will be remembered that after sulking and retiring to his hammock for some time he got to giving out interviews stating that he had confidence that this country would keep its pledges in good faith with Cuba and that everything would come out all right. This was after he began to draw money on the authority of the military representatives of this Government, who got their authority from Washington. They managed by keeping Gomez well paid to keep him out of the field as a competitor of Palma, and in due time the opposition almost ceased and Palma was elected with a merely nominal opposition.

In the meantime Gomez had received about $25,000 and his lieutenants several thousands more. There is little doubt that he could have made trouble and put obstacles in the way of the new government if he had been so disposed and therefore it might have been a good bit of strategy to buy him. Secretary Root says it was and pronounces it a sample piece of "wise statesmanship." It was better, he thinks, to have bought up a few men although somewhat high priced than to take the chances of being compelled to whip several thousands, which might have been the case unless the co-operation of Gomez and the men who looked to him for leadership could be secured and held. That's how the money was invested and it panned out all right. The republic is doing business, Palma is doing his best to run the machine, the soldiers have returned to their customary occupations and Gomez is living comfortably and quietly, at least for the present, on the money that came out of the Cuban treasury.

Suppose we admit all this, and that this course was really "wise statesmanship," the best that could be done under the circumstances, and the clever thing to do anyway. If investing $25,000 more-or-less out of the Cuban treasury to preserve peace in Cuba and prevent any collision with the Cuban soldiers or with the Cuban people was wise "statesmanship," why wouldn't it have been wise statesmanship to have tried something of that kind on Aguinaldo in the Philippines?

When this dickering with Gomez began the conditions in Cuba and in the Philippines were very much alike. We had armies of occupation in both and the people of both expected them to get out. About the only difference was that we were solemnly pledged to get out of Cuba as soon as a stable government was established, and only virtually pledged to get out of the Philippines. We couldn't ignore the Cuban pledge altogether, although it was partially ignored by compelling the Cubans to accept the Platt amendment. We did ignore altogether the virtual pledge to the Philippines, under pretence of having bought the islands from Spain. The spirit of grab had taken possession of the Republican statesmen and the war managers, and therefore they refused to buy Aguinaldo as they bought Gomez. If it was wise statesmanship in the case of Cuba it would have been as wise and perhaps wiser in the case of the Philippines. We would have saved a lot of bother, several thousand lives and about $400,000,000, and would have gained about as much as we will gain even if we should finally succeed in whipping the Filipino "rebels" in.

HANNA WON.

Perhaps the most disappointed man in the United States to-day is Senator Morgan, of Alabama, who has after all his long and hard work, extending through several years, seen his cherished and apparently well grounded hopes of a Nicaragua canal vanish, and a route that did not stand a ghost of chance twelve months ago adopted. He has cause to be disappointed and intensely disgusted, for no man ever worked harder and no man ever more courageously or hopefully against a combination to which a less self-reliant and resolute man would have surrendered early in the fight. He had against him the leaders of the Republican party—Boss Hanna at the head—and the trans-continental Railroads, which always kept a strong lobby in Washington, to fight the canal scheme. The combination was too much for him.

The adoption of the Panama route is simply a dodge to delay operations and eventually defeat any canal project. The defeat of the amendments limiting the time in which the President may close up the Panama negotiations and in the event of failure to adopt the Nicaragua route is proof of this, the supporters of the Panama scheme voting down every proposition that looked in the direction of Nicaragua. The Panama job was never sprung until there was a pretty fair prospect of the adoption of the Nicaragua bill, and then the offer was made, loaded down with complications, and entertained simply for the purpose of obstructing the Nicaragua scheme, and eventually beating it as they have just succeeded in doing.

The Panama is the shorter route, and may possibly be the better one, as contended, but that was simply one of the arguments to break an opposition which had resolved to kill the Nicaragua scheme if possible. The railroads and the Republican leaders, (who favored the Panama route simply to make it appear that they are keeping their pledges to the people) have triumphed and the result will probably be the indefinite postponement of the canal scheme, on which such strong hopes had been built. It will come in time, as a commercial necessity, when we get a Congress which cannot be controlled by interested corporations.

SOLID PETROLEUM.

Some of the leading Northern papers in cities which are suffering from a shortage of coal as a result of the strikes in the coal mines, and are also suffering from the smoke annoyance resulting from the enforced use of soft coal as a substitute for anthracite, are discussing with interest the substitution of petroleum for both, and as preferable to either claiming that it has decided advantages, over both in cost, ease in handling, space occupied, safety, cleanliness, &c.

One of the objections, and the principal one, is that being a liquid it is not so convenient for use without special preparations for it. If this were overcome so that the petroleum could be handled as other fuel is without special provision for it, and in this form were cheaper or even as cheap as coal, there is no reason why it should not take the place of coal to a very great extent if not altogether, in which event the public need be no longer disturbed by or suffer from coal strikes. For some time experiments have been in progress on this line, one of which in France, is said to be a complete success meeting all the requirements. It is described in the following summary, which we clip from an exchange, of a report made by the American consul at St. Etienne, where this petroleum is now being made into blocks suitable for fuel.

The firm in question, he says, are now manufacturing, and presumably placing upon the market, briquettes which are composed chiefly of petroleum, either crude or refined, and possesses all the qualities of coal and ordinary petroleum without any of the objectionable characteristics of either.

In addition to their lightness they leave "only 2 or 3 per cent. of residue; do not form clinkers; do not melt or run; burn without smell or smoke; do not absorb moisture; will float on the water; do not explode, and are not liable to spontaneous combustion under any circumstances; will keep indefinitely, retaining all their qualities of combustion; give off a very white flame from eight to ten inches high; produce twice as much heat as coal; can be used in any kind of furnace, and are easy and agreeable to handle."

The advantages of fuel of this description and having the many good qualities enumerated above, are so patent that they do not require to be pointed out. It may be mentioned, however, as the Consul takes occasion to remark, that these briquettes will be particularly valuable for torpedo boats and in case of emergency, for larger vessels. They occupy only one-half the space necessary for coal, and it is calculated that a boat which requires 2,000 tons of coal to steam a given number of miles can cover the same distance with only 1,000 tons of petroleum briquettes.

What the ingredients are, besides oil, is not stated, this being probably the inventor's secret; but why couldn't this oil be used in combination with sawdust and some other absorbent substance, to facilitate the solidifying? There are inexhaustible quantities of sawdust in the South to which transportation of the oil would be practicable at a reasonable cost. If this dust could be thus utilized what is now a waste and a nuisance might be turned to profitable account and become the foundation of a great industry.

The World's Best Summer Medicine.

PAINE'S CELERY COMPOUND

Has Made People Well When Every Other Remedy Has Failed.

Paine's Celery Compound cures disease! It has saved the lives of thousands of sufferers. It has made the weak strong, vigorous, and happy.

Paine's Celery Compound purifies the blood and builds up the nervous system as nothing else can do; it is pre-eminently the great life giver and health maker.

Overworked and tired women stand in urgent need of this health giving prescription to make and keep them well. All women should take advantage of the remarkable power of this best of medicines for restoring vigor to the blood and strength to the nervous system. The all-important thing for nervous, run down and sleepless women is that Paine's Celery Compound fortifies the whole physical system and by correcting digestion and regulating the nerves, it insures sound, refreshing sleep. In every case of sickness Paine's Celery Compound completely and permanently brings back health. Mrs. Mary M. Myers, Baltimore, Ohio, saved by Paine's Celery Compound after the failures of able physicians, gratefully writes as follows:—

"I suffered for eight years with nervous prostration and the general debility common to women, and had such pains in my back that I could not get around the house. I used several remedies and consulted several of the best physicians without obtaining any relief. Paine's Celery Compound restored me to health.

"I also want to say to all mothers that Paine's Celery Compound is a splendid medicine for their children."

CURRENT COMMENT.

—— At any rare, it is some satisfaction to know that Gen. Gomez is not a participant in the poverty epidemic Cuba is now experiencing. The grand old hammockizer has a full larder.—*Washington Post, Ind.*

—— A rebate of duties on imports from Cuba, which the beet sugar Representatives insist upon, is a cunning but shallow method of evading reciprocity. In return for this rebate Cuba would be excepted to pay a like rebate into the United States Treasury upon American exports to that island. From an economic point of view such a policy would be about as effective as swapping jackknives.—*Philadelphia Record, Dem.*

—— The activity of Senator Quay, or Pennsylvania, in behalf of the bill to admit Oklahoma, Arizona and New Mexico to Statehood, is explained by the statement that ex-State Senator Andrews, of Pennsylvania, has large railroad interests in New Mexico, as Quay also has; and that in return for helping it to Statehood, New Mexico will send Andrews to the United States Senate. This agrees with our original conclusion that the Republicans would not favor the admission of these Territories as State unless they had "an ax to grind."—*Brooklyn Citizen, Dem.*

—— As to the purity of General Lee's motives, the nobility of his character and his commanding abilities, contemporary opinioin was seldom at fault and posterity entertains no doubt whatsoever. In making the foundations of that sympathetic judgment still more firm, and inviting his countrymen to put an even higher estimate on his moral qualities, Mr. Adams has performed a generous and useful service. If there were no other reason to cherish the memory of Lee, his decisive refusal to sanction guerilla warfare after Appomattox and his loyal acceptance of the issue of the titanic combat which saved the Union would entitle him to a secure place among great Americans.—*New York Tribune, Rep.*

— Duplin *Journal*: Only about 20 per cent. of a crop of huckleberries have been shipped this season. The dry weather caused the great shortage in the crop.

— Mount Airy *News*: We have had fine rains here and throughout this part of the State this week and the crops are growing nicely. The creeks overflowed their banks and damaged crops on bottom lands.

— Rockingham *Anglo-Saxon*: The cotton crop was never finer at this season of the year, but there is some complaint about corn prospects. It is tasselling out too early, but recent rains will improve it a good deal.

— Nashville *Graphic*: Cutting wheat has begun in various parts of the county. The crop is not very good when compared with other growing crops. Reports from all over the county are to the effect that the corn crop is the best at this season known in years.

— Goldsboro *Argus*: The farmers of this section are now engaged in housing their grain crops, which have been cut very short by the exceeding dry weather of May, when their crops most needed rain for filling out and maturing. However, owing to the unusually large acreage planted, an average crop in the aggregate will be housed.

— Carthage *Blade*: Rev. Louis Phillips, the oldest Methodist preacher in the State and probably the oldest in the Southern States died Sunday night at his home in this county, near Glendon, in the 96th year of his age. —— The prospects now throughout the county are very favorable to crops and if conditions continue as now we will have abundant yields at the harvest.

— Winston *Journal*: G. C. Davis, of Stokes county, was in the city yesterday and called on us to tell of a peculiar happening, of which he was an eye witness. A thunder cloud was rising and Mr. Davis had repaired to the house to wait until the storm was over, and in the meantime had stretch himself out on the grass to cool off. He happened to look upward and saw three buzzards circling overhead, and while watching them a flash of lightning came and two of the fowls fell to the earth dead.

— Clinton *Democrat*: We have had it extremely dry here during the entire spring, except that we had good showers during April, about the first of the cotton planting season; and cotton that was planted then got up all right, got a good start, and is doing finely, but the cotton that was planted the first of May did not come up regularly as a rule, and quite a lot not at all. Tobacco was set when it was so dry as to cause it to die badly. Some sections of the county fared better than we. Late corn is doing very well.

— Raleigh *News and Observer*: A steel pick driven through a man's back and deep into his body was the horrible accident that occurred on the Seaboard Air Line near the A. and M. College Thursday. Joe Blount, a colored laborer, was at work with a squad on the track. The men were singing and the man behind Blount was swinging a heavy pick. Blount must have stepped back, for the pick was driven into the small of his back and went almost through him. The man's agony was fearful. He retained consciousness, but could not speak. He was brought to the office of Dr. J. R. Rogers, the company's surgeon, who had him taken to Rex Hospital, and an examination shows that the kidneys were grazed, but not punctured. Blount is thirty years old and his home is near Method. He is critically injured, but there is a chance for him. —— The supply of coal in the manufacturing establishments of Raleigh is running low as the result of the strike in the coal region, and a coal famine is feared here. The Raleigh Electric Company, for the first time in its history, is using wood, as its coal is out. Some fifteen to twenty cords are used a day. The Carolina Ice Company has one car load on hand, but the Water Company has several weeks' supply.

— Charlotte *News*: The cases in the Federal Court against the cherry tree men have been settled at last as far as the court here is concerned. All of the three principal defendants have submitted to at least one charge. Judge Boyd announced yesterday afternoon that the defendants would be required to raise the sum of $10,000, to be paid to the clerk of the court, Col. H. C. Cowles, of Statesville, the money to be used in settling with the agents who were caught in the swindle. The law firm of Justice & McBrayer are required to return the $1,800 fee which they collected from C. D. Wilkie and on account of which a true bill was returned against these parties by the grand jury, saying that they were partners in the cherry tree company by reason of having collected the fee. The other defendants, G. W. Rollins, C. C. Watkins, M. C. Padgett and C. F. Greer, who are to contribute to the $10,000 to be raised, will not be punished further. The judge announced that if the above amount were raised, no defendant would be sent to the penitentiary, but the court as it may see fit may send to jail for short terms such of the defendants as it may see proper to imprison. Final sentence will be pronounced in Greensboro at the October term of the Federal Court. The costs in the case, $2,000, will also be paid by the defendants.

COTTON MARKETS.

By Telegraph to the Morning Star.

NEW YORK, June 20.—The cotton market opened easy with prices three to four points lower, following in the lead of Liverpool, where the feeling was rather weak under selling for both accounts. Soon after the call local shorts became uneasy, through claims that the Texas crop was in a critical condition by reason of drought conditions, excessively high temperature and hot winds. Prices were quickly bid up to last night's final figures, with the market giving every promise of further advancing inasmuch as offerings were scarce and the room as a whole generally short. But Liverpool did not respond as expected and the commission houses had little else than selling orders. Slowly but steadily the improvement disappeared and until mid-afternoon the downward movement continued, with July off to 8.49 and August to 8.19. The late weather reports gave rains over the central belt, and the forecast for Texas indicated cloudy indications to night and to-morrow over the eastern section. Then came a bullish visible supply statement and a report that the Houston *Post* will, to-morrow, issue a report showing that the plant throughout Texas is critically in need of rain. Prices rallied quite sharply, July reaching 8.54 and August 8.24. The close was quiet and steady, with prices net unchanged to seven points lower. This week's decrease in the world's visible supply was given as 153,000 bales, against a decrease same week last year of only 97,000 bales. The American visible supply lost 107,000 bales, against 91,000 bales this week a year ago. The "in sight" figures of Superintendent King pointed to 33,439 bales this week and for the season thus far 10,034,999 bales. Total sales of futures in the local market were about 90,000 bales.

NEW YORK, June 20.—Cotton quiet at 9¼c; net receipts 103 bales; gross receipts 542 bales; stock 159,659 bales.

CHICAGO, June 20.—Wet weather influenced breadth and bullish activity in wheat to-day. Continuous rains in the standing wheat and much excitement in the foreign markets over similar conditions in France and England, pushing prices up and the general bullish sentiment engendered by the news held prices very near to top figures. The bulls in the corn pit rested, but the wheat influence was enough to put prices both in corn and oats on a stronger basis. At the close July wheat was ⅞c higher, July corn ⅛c up and July oats ⅛@⅜c advanced. Provisions showed marked independence and strength and closed 10 to 12½c higher.

CHICAGO, June 20.—Cash prices: Flour dull and steady. Wheat—No. 3 spring 69@74½; No. 2 red 81¼@81¾. Corn—No. 2 —c; No. 2 yellow 63c. Oats—No. 2 42¾@43c; No. 2 white 48c; No. 3 white; 47¼@48c. DEMOCRATIC PLAN OF ORGANIZATION.

1. The unit of county organization shall be the voting precincts. In each precinct there shall be an executive committee, to consist of five active Democrats, who shall be elected by the Democratic voters at the several precincts in the meeting first called by the county executive committee. And said committee so elected shall elect one of its members as chairman, who shall preside at all committee meetings.

2. The chairmen of the several precinct committees shall compose the county executive committee, which shall meet at the same time and place as the county convention first held in each election year, and elect a chairman of said county committee who need not be a member of the committee, and he shall preside at all meetings of said committee, and shall hold his place until his successor shall be elected. A majority of said precinct chairmen, in person, or by proxy, shall constitute a quorum. The county committee shall likewise appoint a central committee of five, who shall act in its stead when the county committee is not in session.

3. In case there shall be a failure on the part of any precinct to elect its executive committee for a period of thirty days, the county executive committee shall appoint said committee from the Democratic voters of said precinct.

4. The members of the precinct committee shall elect to any vacancy occurring in said committee.

5. The county executive committee shall call all necessary conventions by giving at least ten days' notice by public advertisement in three public places in each precinct, at the court house door, and any Democratic newspapers that may be published in said county, requesting all Democrats of the county to meet in their respective precincts on a common day therein stated, which said day shall not be less than three days before the meeting of the county conventions, for the purpose of electing their delegates to the county conventions. Thereupon the meeting so held shall elect their delegates to represent the precincts in the county convention from the voters of the respective voting precincts, which delegates, or such of them as shall attend, shall vote the full Democratic strength of their respective voting precincts on all questions that may come before said county conventions. In case no meeting shall be held in any precinct in pursuance of said call, or no election shall be made, the precinct executive committee shall appoint such delegates.

PRIMARIES.

6. At every precinct meeting there shall (before the delegates to the county convention are elected) be a vote taken for the different candidates for office, whose names may be presented and the delegates shall vote in the county convention of their respective districts in accordance with this vote; that is to say, each candidate shall receive in the county convention that proportion of the vote to which the precinct may be entitled which he received in the precinct meeting. The chairman and secretary of the precinct meeting shall certify to the county convention the vote received by each candidate at the precinct meeting.

7. Each precinct shall be entitled to cast in the county convention one vote for every twenty-five Democratic votes, and one vote for fractions of thirteen Democratic votes cast by the township at the last preceding gubernatorial election. Provided, that every voting precinct shall be entitled to cast one vote, and each precinct may send as many delegates as it may see fit.

8. The chairmen of the precinct committees shall preside at all precinct meetings. In their absence any other member of said committees may preside.

COUNTY AND DISTRICT CONVENTIONS

1. The several county conventions shall be entitled to elect to their senatorial, judicial and congressional conventions one delegate and one alternate for every fifty Democratic votes, and one delegate for fractions of over twenty-five Democratic votes cast at the last preceding gubernatorial election in their respective counties; and none but delegates or alternates so elected shall be entitled to a seat in said conventions: Provided, further, That in all county conventions in which delegates shall be selected to attend any State, congressional, judicial or other convention, a vote shall be taken in accordance with the plan of organization as to the candidates whose names may be presented to such county convention. The delegates shall be selected from the friends and supporters of each candidate voted for, in proportion to the number of votes he shall receive in such county convention and no other instruction shall be given: Provided further, That when only one candidate is presented and voted for at each county convention it shall be lawful to instruct for such candidate.

2. At every county convention (before delegates to State, congressional, judicial, senatorial or other conventions are chosen) there shall be a vote taken for the different candidates for office whose names may be presented and the delegates shall vote their respective counties in accordance with this vote, that is to say each candidate shall receive in the State, congressional, judicial, senatorial or other convention the proportion of the vote to which the county may be entitled which he received in the county convention. The chairman and secretary of the county convention shall certify to each convention the vote received by each candidate given: Provided, That where only one candidate is presented it shall be lawful to instruct for him. At all State and district conventions the delegates from the different counties may disregard the vote of their respective counties as to any candidate: Provided, That a two-thirds majority of all his votes from the county consent.

3. The chairman, or in his absence any member of the county, senatorial, judicial and congressional convention shall call to order their respective conventions and hold chairmanship thereof until the convention shall elect its chairman.

4. The executive committees of the senatorial, congressional and judicial districts, respectively, shall, at the call of their respective chairmen, meet at some time and place in their respective districts, and the chairmen of said respective committees shall immediately notify the chairmen of the different county executive committees of the said appointment and the said county executive committee shall forthwith call conventions of their respective counties in conformity to said notice to send delegates to said respective district conventions.

STATE CONVENTIONS.

The State convention shall be composed of delegates appointed by the several county conventions. Each county shall be entitled to elect one delegate and one alternate for every one hundred and fifty Democratic votes and one delegate for fractions over seventy-five Democratic votes cast therein at the last preceding gubernatorial election; and none but delegates or alternates so elected shall be entitled to seats in said convention: Provided, That every county shall have at least one vote in the convention.

Resolution passed at meeting of executive committee, November 30, 1897:

"*Resolved*, That in accordance with the resolution hereinbefore adopted, all white electors who intend to vote with us in the next election, and who desire the re-establishment of Anglo-Saxon supremacy and honest government in North Carolina are cordially invited to participate in all our primaries and conventions."

GENERAL RULES.

1. At all conventions the delegates shall be selected as near as may be from the friends and supporters of the candidates voted for.

2. Such delegates—or alternates of absent delegates—as may be present at any Democratic convention shall be allowed to cast the whole vote to which their precinct or county may be entitled.

3. In all conventions provided for by this system, after a vote is cast, there shall be no change in such votes until the final result of the ballot shall be announced by the chairman of said convention.

4. All Democratic executive committees shall have the power to fill any vacancies occurring in their respective bodies.

5. The chairmen of the different county conventions shall certify the list of delegates and alternates of the different district and State conventions, and a certified list of said delegates and alternates to the secretary of the State central committee.

6. It shall be the duty of the county committee and its chairman to furnish such information and make such reports to the chairman of the State committee as he may desire.

F. M. SIMMONS,
Chairman State Democratic Executive Committee.
P. M. PEARSALL, Secretary.

The Morning Star.

WILMINGTON, N. C.

SATURDAY MORNING, JUNE 21.

UNITED MINE WORKERS.

The Threatened General Suspension of Work in Support of the Strike of the Anthracite Coal Miners.

By Telegraph to the Morning Star.

INDIANAPOLIS, IND., June 20.—It is estimated by W. B. Wilson, secretary and treasurer of the United Mine Workers of America, that the present supply of bituminous and anthracite coal above ground would be exhausted in less than three months, if there should be a general suspension of work in the mines.

According to this estimation, if the national convention of mine workers in Indianapolis, July 17th, would vote for a general suspension of work, in support of the anthracite strike, as it is now proposed, the vast industrial machinery of the United States would be handicapped for fuel, so that thousands of factories would have to suspend work.

At the coming convention the belief is that the competitive districts—Western Pennsylvania, Indiana, Ohio and Illinois—will take a hand against a general strikes. The States have contracts that they do not want to break. The combined vote of the competitive districts, with that of Colorado, is expected to prove strong enough to prevent the success of the proposition for a general strike. There is a number of States whose agreements will expire July 1, and it will depend largely on the outcome of the deliberations between their operators and miners as to where the balance of power will lie in the convention.

PANAMA CANAL PROJECT.

Sanguine Feeling in Washington as to Success of Spooner Proposition.

By Telegraph to the Morning Star.

WASHINGTON, June 20.—There was a very sanguine feeling expressed at the cabinet meeting to-day as to the success of the canal proposition. Secretary Hay had a long conference before the meeting with Senator Morgan and other Senators, and all the advices that had come to the White House before the cabinet meeting went to assure the President that some canal legislation at the pending session is a certainty, and almost as strong was the evidence that that the legislation would be in favor of the Panama project. So well assured is the administration of the outcome that discussion has already taken place of the steps to be taken to carry out the purpose of the act, and it is understood that the State Department will deal with the diplomatic features of the canal project, involving, os course, the consummation of the Colombian treaty, while the Attorney General will pass upon the question of sufficiency of title to the Panama canal.

TRAINS IN COLLISION.

Five Persons Killed and Twenty-nine Injured—Coaches and Cars Burned.

By Telegraph to the Morning Star.

ST. PAUL, MINN., June 20.—Five killed and twenty nine injured are given in the list of casualties resulting from a collision between two passenger trains on the Northern Pacific near Staples at 1:45 o'clock this morning.

Engineer Scott, one of the killed, of the west bound, took the siding expecting the east bound, which had the right of way, to pass. The latter, believing everything clear, came along at a high rate of speed. The switch, however, had in some way not yet explained been turned, and the east bound dashed into the waiting train. The wreckage caught fire but the passengers formed a bucket brigade and kept the flames under control for a time, but the work was given up and the fire burned four coaches and three or four mail, express and baggage cars.

ISTHMIAN CANAL IN THE HOUSE.

Bill Sent to Conference Upon Non-Concurrence in Senate Amendment.

PHILIPPINE BILL DEBATED.

Senate Proceedings—Agreement Upon Military Academy Bill—Appropriation a for Monument to Gen. Hugh Mercer Discussed.

By Telegraph to the Morning Star.

WASHINGTON, June 20.—The House to-day non-concurred in the Senate amendment to the Nicaragua canal bill and agreed to the conference asked for by the Senate. Messrs. Hepburn of Iowa, Fletcher of Minnesota, and Davey of Louisiana were appointed conferees on behalf of the House. This action was taken on the recommendation of the Committee on Inter-State and Foreign Commerce.

Senator Burton, of Ohio, advised none of the friends of the Spooner amendment to object. "I regard this," said he, "as mere formal action. I have the assurance of the gentlemen from Colorado, that every proper effort will be made to bring the matter back to the House at the earliest possible moment, when those who desire to do so can support a motion to concur."

"And I trust," said Mr. Williams, of Mississippi, "that no friend of the Nicaragua route will object. I hope that the conferees will fight for that route to the last ditch."

Soon after the House had sent the bill to conference, reports gained circulation among members that there was not likely to be a protracted struggle in conference, and that the Senate amendment probably would be the basis of the ultimate agreement.

One of the House conferees, Mr. Fletcher, of Minnesota, frankly stated to his associates that he thought an agreement would be reached on the Panama amendment. Chairman Hepburn was not prepared, however, to concede that the fight was over.

The Democratic conferee, Judge Davey, of Louisiana, was counted on as strongly favorable to the Nicaragua route. At the same time the lateness of the session and the prevailing desire to avoid further complications in the Senate, led to a rather general feeling among the members of the House that the Senate amendment had something of an advantage in the conference.

Debate upon the Philippine Civil Government bill continued to-day in the House from 11 A. M. to 5 P. M. and at a session held to-night.

The speakers were given close attention, each side enthusiastically applauding its respective orators. Mr. Jones, of Virginia, the ranking minority member of the Insular Affairs Committee, concluded his speech begun yesterday. The other speakers were Messrs. Hamilton, of Michigan, and Kahn, of California, for the bill and Mr. Patterson, of Tennessee, against it. Mr. Kahn's speech was largely an interesting personal narative of his experience in the Philippines last Summer.

The Isthmian Canal bill was sent to conference after the Senate amendment had been non-concurred in. The House reiterated the position it had taken upon the Army Appropriation bill by ignoring the action of the Senate and send the bill back to the upper house, after voting to adhere to its disagreement to the objectionable army post amendments.

In the Senate.

No business of consequence was transacted by the Senate to-day in open session except to agree to a conference report finally disposing of the Military Academy appropriation bill. So, after the disposition of routine business, the Senate went into executive session and adjourned until Monday.

A bill appropriating $35,000 for a monument at Fredericksburg, Va., to General Hugh Mercer, a proposition which was authorized by Congress in April, 1778, was discussed. Mr. Gallinger of New Hampshire, and Mr. Platt of Connecticut, urged that there were other revolutionary heroes who ought to be honored with monuments, and Mr. Cockrell of Missouri registered his opposition to the bill and all similar measures. The bill went over on objection of Mr. Warren, of Wyoming.

STRIKE AT NORFOLK.

About Two Thousand Men in the Building Trades Are Idle.

By Telegraph to the Morning Star.

NORFOLK, VA., June 20.—There is no material change in the strike situation, on which about two thousand men are now idle. The greatest annoyance is caused by the strike of carpenters at work on over 300 houses in course of erection.

General Organizer Odell, of the Carpenters and Joiners' Union, is here endeavoring to adjust the differences. He is advising all carpenters to refrain from work and asserts that his organization is amply able to pay out of work benefits for ten years. Unless a speedy settlement is made it is highly probable that a sympathetic strike will be the result.

TEXAS ANTI-TRUST LAW.

Decision of the State Supreme Court in the Shippers' Compress Case.

By Telegraph to the Morning Star.

AUSTIN, TEXAS, June 20.—The Supreme Court has decided the Shippers Compress case against the State. The decision was based on facts, the court holding that competition had not been destroyed because there was none in the first instance. As to the constitutionality of the anti-trust law, the court held that the State may annul charters under it, but that it cannot collect penalties.

SEABOARD AIR LINE.

Contract Let for Building the Asheville and Rutherfordton Railroad.

By Telegraph to the Morning Star.

ASHEVILLE, N. C., June 20.—The contract for building the Asheville and Rutherfordton railroad was to day let to George T. Canis, of New York, and work will begin at once. It is understood here that the Seaboard Air Line is backing the movement and that the road will be extended through the mountains to the Tennessee line.

ANOTHER CONFERENCE ON CUBAN RECIPROCITY.

Republican Senators After Three Hours Discussion Adjourned Without Action in the Matter.

By Telegraph to the Morning Star.

WASHINGTON, June 20.—The Republican senators held another conference to-day on the question of Cuba reciprocity, and after three hours discussion adjourned without action, subject to the call of Chairman Allison. Almost all the Republican senators who are in the city were present. Eight or nine speeches were made in support of reciprocity and only two in opposition to that policy. This was in accord with a previous understanding that as the best sugar senators had monopolized the attention of the conference on Wednesday night their oppenents to-day should have the greater share of the time. The speeches in support of reciprocity were made by Senators Foraker, Beveridge, Lodge, Hale, Warren, Aldrich, McComas and Hanna. Senator Platt, of Connecticut, adding a few words to what he had said at the Wednesday evening meeting. The two speeches in opposition to the proposed legislation were made by Senators Burton and Burrows. The speeches for reciprocity were all along the same general line and without exception were pleas for legislation and for party harmony.

Senator Foraker spoke of the necessity of maintaining the most cordial relations with Cuba. He said the question was an economic one and that reciprocity would promote not only the interests of Cuba but American interests as well.

Senator Lodge dwelt with especial emphasis on the importance of having Republican Senators stand together at this critical point in the party's history. Much of the prestige and future national standing, he said, might depend on the step now taken, for all the world was watching with interest our treatment of the Cuban people. He declared that opposition would not suffice to prevent the continued presentation of this matter until success should be attained, and was quite positive that if reciprocity with Cuba was not secured now it would be at a later date.

Senator Aldrich reiterated the statement, which has been made by other speakers, that the question was a party question and pleaded with the opposing senators to recognize this fact and accept the situation. He ridiculed the idea that the proposed reduction would injure the beet sugar interests, saying that as sugar now receives protection amounting to about 100 per cent. on the cost price, the reduction proposed in the bill, suggested by the Cuban committee, still would leave a protection amounting to 80 per cent. That, he said, ought to be ample.

The meeting had almost concluded when Senator Burton, of Kansas, took the floor to make a brief but impassioned and eloquent speech in support and defence of the attitude of the beet sugar Republicans. His side, he said, stood for the support of one of the most promising, as it was one of the most deserving of infant industries. He said that it was not true that the beet sugar men were not willing to extend a helping hand to the people of Cuba, if they needed help, but he contended that there was need of assistance to the people of that island at this time. He asserted that neither the government, the planters, or the Cuban laborers had any no need of the proposed assistance, and it was unfair and unjust to ask the farmers of this country to sacrific their own interests for the purpose of granting an annuity of five or six million dollars.

Senator Burrows maintained the beet sugar men were acting in accord with strict Republican policy in advocating the protection of the beet sugar interests.

The conference adjoured to meet at the call of the chairman and it is generally believed that another meeting will occur some time next week.

THE WORLD'S COTTON.

Visible Supply Statement Issued by the New Orleans Exchange.

By Telegraph to the Morning Star.

NEW ORLEANS, June 20.—Secretary Hester's statement of the world's visible supply of cotton, issued to-day, shows the total visible to be 2,658,753 bales, against 2,811,949 last week and 2,948,096 last year. Of this the total of American cotton is 1,750,753 bales, against 1,057,449 last week and 1,865,096 last year, and of all other kinds, including Egypt, Brazil, India, etc., 908,000 bales, against 954,000 last week and 1,083,000 last year.

Of the world's visible supply of cotton there is now afloat and held in Great Britain and continental Europe 1,565,000 bales, against 1,457,000 last year; in Egypt, 89,000 bales, against 148,000 last year; in India, 445,000 bales, 616,000, and in the United States 509,000 bales, against 727,000 last year.

INDICTMENTS ISSUED.

Against Certain Railroads for Pooling Cotton Rates Out of Atlanta.

By Telegraph to the Morning Star.

ATLANTA, GA., June 20.—The Federal grand jury which has been investigating thealleged violations of the interstate commerce law relating to the pooling of cotton rates out of Atlanta, to-day returned three indictments, one against five of the railroads entering Atlanta, and one against individuals representing the railroads, charging them with violating the law to regulate commerce and a joint indictment against both railroads and individuals for violating the Sherman anti trust act. The railroads indicted are the Southern Railway, Seaboard Air Line, Atlantic and West Point, Western and Atlantic, and Georgia Railroad and Banking Company. It is understood that warrants will be issued tomorrow.

AT ELK PARK, N. C.

A Fatal Duel—One Man Killed and the Other Seriously Wounded.

By Telegraph to the Morning Star.

ROANOKE, VA., June 20.—A special from Bristol, to the Roanoke *Times*, says:

News of a fatal duel between James Ellis, a policeman in the little town of Elk Park, N. C., and William Winters, a mountaineer, has reached here. The men faced each other with revolvers and fired several shots. Ellis was killed, while Winters was seriously if not fatally wounded. Winters had a grudge against the officer, who had formerly arrested him for disorderly conduct.

As a result of the assignment of the United States Trust Company, Philadelphia, the police are looking for Henry R. McDowell, its president, a member of the New York bar, to arrest him on information, charging him with larceny of its securities and embezzlement of its funds to the value of $50,000.

STRIKE SITUATION AT PATERSON, N. J.

Mayor Backed by Strong Force of Police and Militia Has City in Control.

SILK MILLS RESUME WORK.

A Vigilance Committee of Prominent Citizens Formed to Force Anarchists to Leave the City—The Troops Will Remain on Duty.

By Telegraph to the Morning Star.

PATERSON, N. J, June 20.—Mayor Hinchcliffe seems to-night to be in complete control of the situation here, backed as he is by the entire peace controlling force of the city and county and a goodly portion of the State militia. The soldiers' presence has had a deterrent effect upon the "reds" and they are not in evidence in the city.

The troops will remain on duty all night and be relieved by the deputies in the morning. No troops will do duty in the day time unless there should be serious trouble.

The troops here are the Essex troop of cavalry and the First and Second battalions of the First regiment, all from Newark. No demonstration marked their arrival.

A number of silk mills opened at the usual hour to-day, the owners relying upon the promise of the mayor that troops would be called out to protect properly. At all the mills that started up, policemen, firemen or deputy sheriffs were on guard, and every crowd that gathered at any of the plants was promptly dispersed. The orders of the mayor are that no gathering of the people shall be permitted in the streets and these orders are being fully carried out by the force at his command. In addition to the silk mills two dye-houses were opened up. At these places the bosses went to work assisted by non-union dyers' help.

At mills that have opened the employes were supplied with arms and ammunition to protect themselves and their employers' property in case of attack.

An organization has been completed composed of fifty wealthy business men of this city to be known to the public as the Paterson Vigilance Committee, but the membership and proceedings are not to be made public. Private detectives have already been engaged to shadow the leading "reds." The Anarchists are to be induced to leave Paterson quietly, if possible. If they do not go the committee is said to have its own plan for action. One of the methods to be employed is said to be the keeping of a blacklist and no matter where in Paterson a man on it obtains work, his employer will be notified to dismiss him.

If this plan be carried out it will starve out of the city all Anarchists who may come here. It is said the committee has $250,000 pledged by the men composing it to carry out its purposes.

OLNEY FOR PRESIDENT.

Democratic Club Formed in Memphis, Tenn., to Promote His Candidacy for Presidential Nomination.

By Telegraph to the Morning Star.

MEMPHIS, TENN., June 20.—At a recent meeting of many prominent Democrats, presided over by M B. Norfleet, a club was formed to promote the candidacy of Hon. Richard Olney, of Massachusetts, for the presidency. Mr. Olney was invited to visit Memphis and deliver anaddress. To-day Mr. Norfleet received the following letter which is self explanatory:

"Boston, June 10,.—Hon. M. B. Norfleet, Memphis, Tenn.—Dear Sir—I have yours, of the seventh instant, inviting me to deliver an address at Memphis, Tenn., 'upon the political conditions of our republic,' including the call for the formation of a club in the interest of myself as 'the next nominee of the Democratic party for president,' and asking for a reply on both subjects.

"Not being a candidate for the presidency, I cannot, of course, encourage the formation of the proposed club. For the same reason, and because my appearance at Memphis in answer to the invitation would inevitably be misconstrued into a desire to be a candidate in spite of all disclaimers, I must ask to be excused from delivering the address in question.

"In thus answering your note with entire frankness, I think I ought to be equally frank in saying that the favorable sentiments of yourself and those you represent are highly appreciated and give me sincere pleasure.

"Very truly, yours,
(Signed) "RICHARD OLNEY."

VIRGINIA COAL FIELDS STRIKE SITUATION.

Some Trouble With Miners in the Pocahontas Fields—No Confirmation of the Report of Miners Killed.

By Telegraph to the Morning Star

ROANOKE, VA., June 20.—There is is little change to-day in the strike situation in the Pocahontas coal fields. The sheriff of Tazewell county is experiencing some trouble with miners in the vicinity of Pocahontas, but so far the Norfolk and Western railroad officials have no report of any serious encounters. About 375 cars were loaded yesterday and the output to-day will be about the same. The officials to-day say that they do not expect to make any gains in the tonnage of coal being mined until after the marching bands have worn themselves out and the other men who are staying around the old haunts have laid down their arms. The operators do not anticipate losing any of the men now at work. The railroad people have no confirmation of the report that five miners were killed by strikers throwing dynamite into a shaft near Williamson, W. Va. The story was given out by some miners who passed through here yesterday on a train bearing the bodies of two miners. The bodies bore certificates that they had been killed by an explosion of dynamite, but beyond this nothing can be learned.

CLARKSBURG, W. V., June 20.—The report current that the Mound Clare mine had been dynamited had for its basis the fact that an abandoned part of the mine fell in. It is not known whether it had been tampered with or not. There is great unrest among the miners. "Mother Jones" spoke here to-day. With the exception of three small mine they are all running and a large output is being made.

In the Flat Top Region.

BLUEFIELD, W. VA., June 20.—For the past two days there has been no new development in the strike situation. The army of striking miners has been taking a rest, having discontinued their march for a day or so in order to be in shape for a grand march to take place to-morrow throughout the entire field. The forty odd collieries pay off their employes to-morrow and the strikers claim that the majority of the men not now out will strike after getting paid. It is generally conceded by both operators and strikers that to-morrow, so far as the Flat Top region is concerned, will decide whether the strike continues or whether the men remain at work on Monday.
